

KEF UNI-Q® LOUDSPEAKERS

Ci200.3QS/QR

Information Sheet

These are the Ci200.3QS and Ci200.3QR flagship ceiling speakers offering outstanding performance. Audiophile quality sound is derived from KEF's Uni-Q® driver array technology, providing your room with an expansive soundscape, excellent bass extension and so creating the perfect sound stage. Deciding whether to place the Ci200.3QS and Ci200.3QR in the walls or ceiling has never been more simple. Thanks to KEF's simple and ingenious screw down clamping system you'll find them easy and quick to install.

Designed with moisture-resistant fixings allowing placement in the harshest environments such as bathrooms or kitchens.

The Ci200.3QS and Ci200.3QR offer excellent quality with no sacrifice.

Features and Benefits:

The new slender bezel and contemporary grille design of the new Ci200.3 models combine to make the finished installation less intrusive than it's predecessors.

The Uni-Q array features a new 25mm (1in.) aluminium dome high frequency unit mounted coincidentally into a new 200mm (8in.) polypropylene bass/mid range unit providing improved dynamic capability. A new crossover design provides the new Ci200.3 models with superb off-axis dispersion characteristics.

Like all KEF Ci in-wall products, the bezel and grille can be painted to match the interior décor.
